FDTRC thinks about modern society. Now all are busy in their life. No one has time. Parents are busy to earn money for giving comfortable life to his family. Children are busy in their study. They forget to explore their extra creativities. In this situation, FDTRC has taken a little step to explore their creativity. We choose drawing. Because we believe that drawing is a subject where anyone express their feelings, thoughts, sorrows and pleasure etc by a picture.

We invite all schools to work with us. All schools have to take a little step with us to explore their creativity. Students go to school for study. We want besides this; they complete their drawing courses according to syllabus.

This opportunity is only for schools.
